Professional Summary

Full Stack Developer experienced in building scalable web and mobile applications. Experienced in Java, Spring Boot, Laravel, Node.js, Nest.js, React.js, Next.js, React Native, PostgreSQL, MongoDB, Docker, and AWS. Skilled in REST API development, system design, monolithic and microservices architectures, messaging queues, API gateways, load balancers, caching, authentication, database design, and scalable backend systems. Experienced in ERP, fintech, CRM, and enterprise automation platforms, with strong knowledge of Agile/SCRUM, performance optimization, CI/CD, and cloud deployments.

Professional Experience

Stratesfy Karachi, Pakistan
Full Stack Developer Jul 2023 – Present

- Developed and maintained scalable web and mobile applications using Laravel, Node.js, Nest.js, React.js, Next.js, and React Native.
- Designed and developed RESTful APIs, backend services, database architectures, authentication systems, and business workflows for ERP, fintech, CRM, and enterprise automation platforms.
- Developed backend services using Java and Spring Boot, including REST APIs, business logic, database interactions, authentication, and enterprise application components.
- Applied Java and Spring Boot development practices to build modular, maintainable, and scalable backend services.
- Worked with system design concepts including monolithic and microservices architectures, API gateways, load balancers, messaging queues, caching, horizontal scaling, and distributed systems.
- Designed and optimized database schemas, queries, relationships, and data access using PostgreSQL, MongoDB, and MySQL.
- Implemented authentication and authorization mechanisms including JWT, role-based access control, permissions, and enterprise security features.
- Integrated third-party services and APIs including Plaid, Salesforce, Microsoft Teams, Google Sheets, payment gateways, and external APIs.
- Built reusable frontend components and responsive interfaces using React.js, Next.js, JavaScript, TypeScript, HTML5, and Bootstrap.
- Developed cross-platform mobile applications using React Native and integrated them with backend REST APIs and authentication services.
- Troubleshot production issues, investigated application errors, fixed bugs, and improved system reliability and performance.
- Participated throughout the Software Development Life Cycle (SDLC), including requirements analysis, system design, development, testing, deployment, debugging, and maintenance.

National University of Computer and Emerging Sciences (FAST) Karachi, Pakistan
Teaching Assistant – Programming Fundamentals

- Guided students in programming fundamentals, algorithms, and problem-solving.
- Conducted programming labs and supported assignments and projects.
- Evaluated coding assignments and provided constructive feedback.

Education

National University of Computer and Emerging Sciences (FAST) Karachi, Pakistan
Bachelor of Science in Computer Science Jun 2023

Technical Skills

Languages: Java, JavaScript, TypeScript, PHP, SQL
Backend: Spring Boot, Node.js, Nest.js, Laravel, REST APIs, Microservices
Frontend: React.js, Next.js, HTML5, CSS3, Bootstrap,React Native
Databases: PostgreSQL, MongoDB, MySQL
System Design: Microservices, Monolithic Architecture, API Gateway, Load Balancing, Caching, Messaging Queues, Distributed Systems
Cloud & DevOps: AWS, Docker, Linux, CI/CD
Security & Tools: JWT, RBAC, Git, GitHub, Postman, Agile/SCRUM
